Logistics Skills Bootcamp

Government invest £34 million to recruit over 11,000 more people to become HGV drivers.

This is an opportunity for individuals and businesses alike, working in the Logistics sector, to benefit from Government funding.

Purpose and background

This funding is particularly targeted at the severe shortage of drivers within road haulage and the logistics sector. The aim is to reduce skills gap shortages, enhance individual careers of both employed, self-employed, and unemployed people. They are either currently working in the sector or have a desire to pursue this career path.

***Hold a full car
(category B) driving
licence?***

The funding will enable the training and licence application to be completed for an individual in order to engage with a suitable employer. (subject to approval)

The suitability criteria is that the individual is over 19 years of age and either gains or advances their career within an employer based within Warrington or Cheshire.

What next?

If you are interested in this potential funding, either as an employer or individual based in Warrington or Cheshire looking for employment opportunities within the sector, visit the website and complete the contact form. www.jma-training.co.uk/
